ISPG's IP WEEK

January 10-12, 2023

CYBER RISK DASHBOARD DEMO - SESSION 1

TUES., JANUARY 10 AT 10:00 AM

The Reporting & Data Integration (RDI) Team will demo the Dynamic Cyber Risk Reports dashboards in Production and how the team provides vulnerability data to each component in CMS so users can track the health of their FISMA systems.

SIGNAL APP DEMO

TUES., JANUARY 10 AT 11:30 AM

Learn about ACT scheduling feature enhancements implemented in Q1FY23, walk through the wireframes developed for Pen Testing scheduling, and review the product roadmap for Q2FY23.

ISPG STRATEGIC OVERVIEW

TUES., JANUARY 10 AT 1:00 PM

The Strategic Overview is an opportunity for all ISPG members to come together as a group to celebrate and reflect on accomplishments while bringing transparency and alignment around the ISPG mission, vision, and strategic direction.

DIVING INTO OKRS

WED., JANUARY 11 AT 10:30 AM

We will build upon the basics that we previously learned in OKR Fundamentals. Learn how to create an effective OKR and discuss the frequency of reviewing OKRs and providing adequate visibility across the organization.

HUMAN CENTERED DESIGN (HCD) FOR INNOVATION & ITERATION

WED., JANUARY 11 AT 11:30 AM

Explore tools and showcase how we use HCD to develop personas in order to iterate and improve our ISPG reporting systems to make them more Actionable, Accurate, and Accessible.

CYBERGEEK DEMO

WED., JANUARY 11 AT 1:00 PM

CyberGeek is the new website from ISPG that will be a trusted source of information for security and privacy at CMS. The platform will provide the resources needed to accomplish business operations, groupwide initiatives, projects, tasks, and more.

DANGERS OF DEEPFAKES

WED., JANUARY 11 AT 3:00 PM

By the end of this presentation, you'll be able to: describe the threats posed by fake profiles in social media; be able to identify a fake profile; identify the consequences of accepting the connection of a fake profile; describe best practices for safely operating within the social media environment; and define the four cybersecurity behaviors to adopt to best minimize your risk.

CYBER RISK DASHBOARD DEMO - SESSION 2

THURS., JANUARY 12 AT 10:00 AM

The RDI team will demo the Next Gen Vulnerability Monitoring Dashboards currently in Production that provide up-to-date status and visualizations of key system-level metrics to the components here at CMS.

CREATING A STRONG CULTURE (TEAM VERSION)

THURS., JANUARY 12 AT 1:00 PM

This training will help ISPG understand and further develop its' existing culture, help break down silos, guide decision making, and improve workflow overall.

For more information, contact the ISPG PMO by email at ISPG_PMO or on Slack at ISPG-Agile-PMO.
